

Emergency Response Flood Management and Swift Water Rescue Course

TO BE CONDUCTED IN MELBOURNE & SYDNEY AUSTRALIA

This course will now feature personnel that have been involved in the flood situation and rescues in Australia, giving firsthand accounts of the situations faced by personnel in flood water rescue.

A price can be put together for delivery in clients country, this would be subject to suitable and safe water ways to conduct rescue practical's.

In Sydney we use a man made swift water course that can be changed to suit the practical and can be switched off at a moment's notice for maximum safety. Our course is inclusive of all equipment used.
